Naveed Khan,
INTERNATIONAL
DIRECTOR

#UnitedWeWin

Assalaamu alaikum warahmatullahi wabarakatahu,

Charity Week 2022 has been special because the forerunners in uniting our ummah were shining. We've probably heard the phrase: There is no I in team. Likewise Charity Week is not just about your MSA, or your family raising money for orphans, or your group of friends who made a team. Charity Week is not about just any one of us. SubhanAllah Charity Week 2022 was only possible because we had 750 volunteers, in 265 different cities spanning the globe with a 17 hour time difference from California to Japan!

This team worked behind the scenes all year round, creating content, managing events, ordering resources. We reached out to hundreds of institutions who went on and fundraised. And they went above and beyond, organising Gala dinners with 400 attendees in Texas, London and Frankfurt, or selling 4000 donuts in Ottawa. We had many many individual participants as well, uniting where-ever they could.

Charity Week is not just any one of us. We celebrate the achievements of Charity Week 2022 in this Annual Report thanks to all of us working together; Jazakhallahu Khayrun to you all, and especially our Islamic Relief and EAA teams without whom none of this would be possible.

#CW2023

charityweek.com

In Surah Al Waqiah, Allah swt talks about the forerunners and how they will be close to Allah in Jannah. And with these words we open our annual report. Why? Because that is what I love about Charity Weekers. When everyone in the world is finding every reason to disunite; whether for skin colour, clothing, differences of opinion - you are the forerunners. YOU are playing against all of the odds, and winning this game of unity, as champions.

Keep running forth to khayr, and unite our ummah. I pray Allah swt brings us all close to Him in the gardens of bliss.

وَالسَّابِقُونَ السَّابِقُونَ

and the foremost 'in faith' will be the foremost 'in Paradise'.

أُولَئِكَ الْمُقَرَّبُونَ

They are the ones nearest 'to Allah'.

فِي جَنَّاتِ النَّعِيمِ

in the Gardens of Bliss.

Surah Al Waqiah (Ayahs 10-12)

Thank you for letting us be a part of your family:

WHAT OUR YEAR LOOKED LIKE

#CW2023

charityweek.com

“GO FORTH AND SPREAD UNITY!”

THE AMBASSADORS

The vision behind CW has always been about building unity of purpose.

Without our Ambassadors on the ground advocating for that vision, actively building and reviving communities in their cities, there is no way of achieving that.

#CW2023

charityweek.com

AMBASSADOR TRAINING

As COVID restrictions eased globally, our teams were finally able to return and meet each other face-to-face! We took a staggered approach to training to give our Ambassadors the skills they needed as they needed them.

Following Eid, we commenced with pitch training to get our ambassadors ready to go out and spread the vision.

This was followed shortly after by our Support training, tailored for each country, to ensure we could support returning and new institutions with their Charity Week plans.

SPORTS

THE THEME OF CW2022

As Ramadan inched closer to our start date this year, our Assemble events were delayed until our team's settled back in post Ramadan.

Our teams were more excited than ever to meet each other in person and get their grand reveal to the year's theme: **Sports**

Having a theme each year allows us to keep the vision fresh for each successive generation

It also allows us to gain new inspirations for bringing institutions together, identify new fundraising opportunities and pull together spectacular events.

TRAINING OUR TEAMS: ASSEMBLE

WHAT IF MUHAMMAD ALI DID CHARITY WEEK?

At Assemble 1, our teams learned about how we can draw inspiration from Muhammad Ali and his exceptional work-ethic throughout his professional career.

Despite the significant barriers he faced, he pushed himself to the limits of his physical ability and achieved what no one else could

Muhammad Ali never let anyone define what he was capable of.

Manifesting that we are all part of a team, that needs to play together and can not give up on its goals for the sake of the children in need.

At Assemble we laid the foundation of a team dynamic of working together, not giving up and not letting others define, where our success starts and ends.

TRAINING OUR INSTITUTIONS: CHARITY WEEK MASTERCLASS

Our fantastic Masterclass training returned, with our teams providing training directly to institutions on “how to Charity Week”. Webinars were held to teach techniques for fundraising and building hype. Topics covered included:

- Attracting new faces through effective marketing;
- Fundamentals of responsibility that come along every penny collected;
- Maximizing the barakah of an event.

#CW2023

charityweek.com

Virtual masterclass events were held this year in the UK and Germany.

INSTITUTION ASSEMBLE

(AKA THE HYPE BEGINS)

Institutions Assemble is our opportunity to bring Institutions together, share our final tips and tricks and get them inspired before Charity Week was finally among us

Our team was back in action to deliver **25** face-to-face assemblies across the globe!

Charity Week hands around the world

Anyone for some last minute fundraising?

Charity Week Live Streams were back

Because Charity Week isn't officially over until the clock strikes twelve....

Our teams kept the hype going with live streams across the world, sharing fond memories and making every second count towards capturing those last minute donations.

SO
HOW DID WE DO?

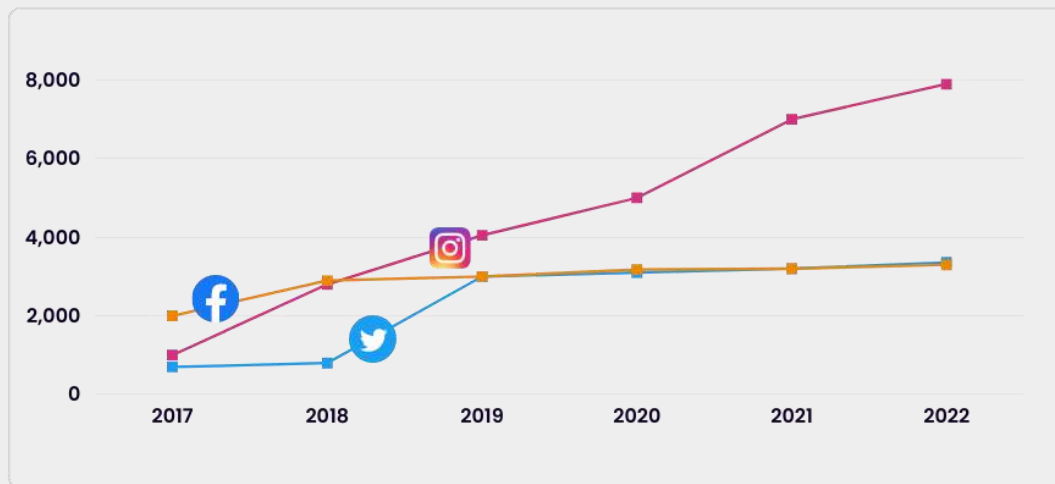

#CW2023

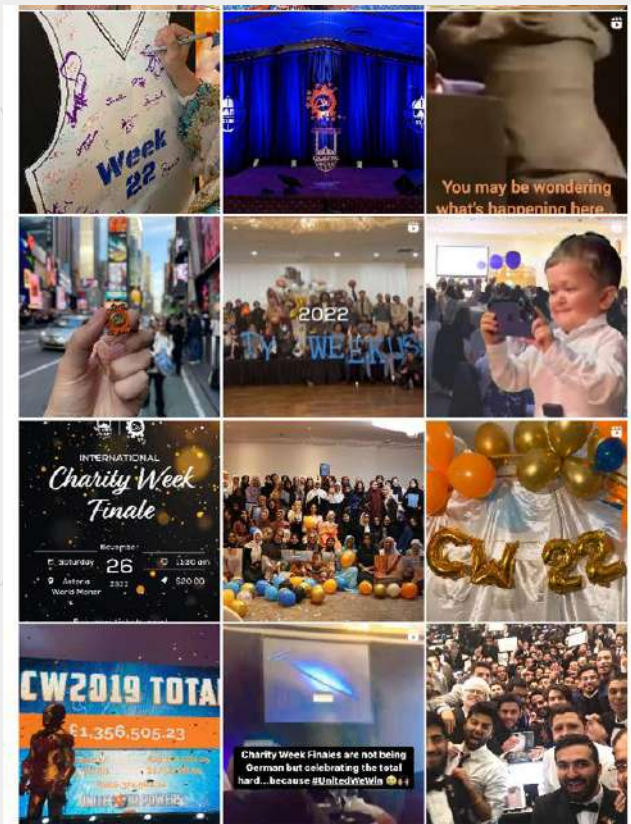

charityweek.com

WE GREW ON SOCIAL MEDIA

Charity Week's Instagram presence continued to grow healthily through 2022 capturing the international hype. We achieved nearly 20,000 visits to the Charity Week profile as well as a 75% increase in views on our reels since 2020! We also focussed efforts on tapping into the Tiktok, improving our viewership and following.

#CW2023

charity-week.com

INTRODUCING THE CW MASCOTS

Our CW family grew and grew in 2022 as we welcomed our newest brother-sister duo Deen and Dunya! You can keep up-to-date with their adventures on our Instagram or directly on Webtoon.

#CW2022

charityweek.com

OUR FAMILY KEPT GROWING

We also welcomed our partnership with Pillars, a salah and dua app, whose founders were previously CW volunteers in London!

We shared our Pillars collaboration across our social media and with volunteers at our Assemble events and the Pillars team encouraged their followers to get involved in our 10K step challenge.

PROJECTS 2022

WHERE WAS THE MONEY
RAISED SPENT?

#CW2023

charityweek.com

MYANMAR: CYCLONE SHELTER & SCHOOL

Rakhine state is highly susceptible to frequent cyclones and disasters. The Rohingya people are a stranded community whose movement is frequently restricted, denied or access to basic needs and services are extremely controlled.

This project will construct a cyclone shelter that will be a point of refuge to the community during cyclones. Outside of this, the shelter will be a school, fully equipped with the required learning materials and equipment. There will also be water and sanitation facilities, providing safe and private access to bathing facilities for women & girls. The beneficiaries of this are 600 children (morning & day shifts) and 1250 women & girls by providing access to 50 sanitation and bathing facilities.

AFGHANISTAN: EMERGENCY MALNUTRITION

Economic collapse, drought and rising food prices globally have led to millions of people facing acute food insecurity in Afghanistan. According to the latest IPC figures, an estimated 4 million women and children are likely suffering from acute malnutrition and need urgent support.

This project sets out to complement treatment services offered by public health facilities with preventative services. The project will provide 3,600 child and mother nutrition screenings, as well as treatment to 6,800 mothers and children suffering from mild acute malnutrition. We will also provide 6,800 pregnant women with maternal healthcare to support the status of their nutrition and support preventative work within the community to identify severe acute malnutrition and refer to the appropriate care.

NIGER: IMPROVING SAGA GOROU PRIMARY SCHOOL

Children in the Saga Gorou village currently are taught in classrooms built from straw, which is exposed to all the weather conditions and also requires annual repairs and rebuilding from parents, leading to missed classes. There is a lack of water and sanitation facilities, alongside not enough adequate seating (children sitting on the floor, or bringing their own chair in) and teaching supplies.

This project will construct 4 classrooms and an office as well as constructing the water & sanitation facilities. The school will also be provided with all the necessary furniture and equipment for the students and resources for the teachers. The School Management committee will be set up and trained for long-term management of the school and facilities.

GAZA, PALESTINE: WATER & SANITATION FACILITIES FOR SCHOOLS

Lack of access to adequate water supply, insufficient toilet and proper handwashing facilities. Toilets, handwashing facilities and drinking water points are evidently inadequate in Gaza schools, according to Ministry of Education and UNICEF guidelines. On average, one toilet caters for 71 students in Gaza and one hand-washing facility caters for 130 in Gaza.

This project aims to improve the Water, Sanitation & Health services at 6 public schools in Gaza Strip, to enhance the access of most vulnerable students to safe drinking water, sanitation and hygiene in an inclusive and effective learning environment. The project includes awareness raising activities to promote the importance of good hygiene and cleaning practises.

SYRIA: CHILDREN'S HEALTHCARE

The crisis in Syria began in March 2011, unleashing a previously unimaginable escalation of hardship which to date has continued unabated. The ongoing crisis has inflicted terrible suffering upon millions of people. 14.6 million of Syria's total population of 17 million people need humanitarian support. Islamic Relief teams are on the ground delivering life-saving aid. In the midst of this, healthcare services and facilities have been majorly affected, with 25 confirmed attacks on healthcare facilities.

This project aims to support the healthcare of the children by providing the children hospitals and ICU in Syria, medicine, disposables, doctors stipends and equipment. This project will also support mobile clinics which will visit schools for medical checkup and treatment.

AFGHANISTAN: GIRLS & BOYS EDUCATION

The project sets out to improve the educational status of girls and boys in the provinces of Balkh, Kandahar, Nangarhar in Afghanistan, by increasing access to primary education and spreading awareness of the importance of education.

Community-Based Education (CBE) is an education modality in Afghanistan who provide direct access to quality education for children who don't have access to formal schools. They are formally recognised and adopted by the Ministry of Education to reach rural, remote and underserved populations.

This project will support the process of identifying locations for CBE centers, set them up including all the required resources and equipment, as well as train and deploy teachers to the CBE centers or schools. Children in no formal education will be enrolled and provided education through schools and community based education (CBE).

BANGLADESH & PAKISTAN: EMERGENCY FLOODS APPEAL

Heavy monsoon rains have led to rivers bursting their banks, cutting off around 2 million people in northeast Bangladesh. Many families are stranded with homes, vital infrastructure and livelihoods destroyed. According to the government of Pakistan, a third of the country - equivalent to an area the size of the UK - was underwater. Huge areas of agricultural land have been affected, with crops swept away and three quarters of a million livestock killed, which will mean many people going hungry in the longer term. There is also a high risk from water-borne diseases spreading in affected areas.

Islamic Relief is on the ground, and has been distributing food packs, tents, kitchen sets, hygiene kits and cash grants to those affected, and will continue to support those in need. This project will provide much needed support to those affected by the floods, according to their needs.

HORN OF AFRICA (KENYA, SOMALIA & ETHIOPIA): EMERGENCY FLOODS APPEAL

The combined effect of four failed rainy seasons has pushed parts of Kenya, Somalia and Ethiopia to the brink, killing livestock, forcing people to leave their homes and increasing levels of child malnutrition. It is estimated that one person is dying every 48 seconds from hunger in East Africa.

This project will provide people with life-saving food and non-food parcels, containing flour, oil, pulses, rice, sugar, and salt.

Work will also seek to improve water supplies by repairing old or damaged boreholes and drilling new ones, repairing traditional community water storage pools, and trucking in clean water where there is no other option.

SRI LANKA: BICYCLES FOR DISTANT STUDENTS

Sri Lanka has experienced multiple disasters, both manmade and natural, over the last four decades. This includes communal violence that takes place once a year on an average for the last 4-5 years' time and natural disasters (Tsunami, frequent floods and drought), in addition to the Covid-19 outbreak. The impacts of these continue to be felt by the most vulnerable.

This project aims to build a catch-up education mechanism to address the gap found in the education sector and to encourage students to continue their education. Charity Week were able to provide bicycles to students who walk long distances to schools to ensure access to education.

MALAWI: DIGNITY KITS FOR ADOLESCENT GIRLS

The project aims to contribute to the fulfillment of basic rights and core needs for vulnerable communities in Blantyre District. Vulnerable adolescent girls, including orphans, cannot regularly attend school as their families cannot afford the sanitary dignity kits.

Alongside other interventions, Charity Week were able to provide sanitation dignity kits to adolescent girls.

MALI: PROTECTION THROUGH CHANNELS OF HOPE PATHWAYS

Women and children in Mali are disproportionately affected by ongoing protracted crises and escalating humanitarian needs. Harmful practices and violence against women and children, are driven largely by harmful traditional and cultural beliefs and practices.

This project is working in various regions within Mali. Interventions seek to raise community awareness on the dangers posed by Female Genital Mutilation (FGM), Gender Based Violence and Child Abuse in the intervention communities.

A faith-based approach will be used, with the support of religious leaders, who are trusted and valued in local communities, to educate communities quoting scriptures. This project will also support women and girls, including those who previously practiced FGM and have now stopped, to strengthen their economic and social status through supporting income generating activities.

EDUCATION SUPPORT FOR CHILDREN

SOMALIA

More than 50% of primary school aged children in Somalia are out of education. This is further heightened with a disproportionate impact among girls, extreme poor & rural children.

This project aims to improve the access to education opportunities, by strengthening governance structures and school safety. Flexible classes. Remedial support and intensive basic education will be developed to provide viable alternatives for students who have other responsibilities which limit their ability to access traditional education.

SOUTH AFRICA: THANDOWETHU SCHOOL WATER & SANITATION FACILITIES

Schools with poor access to safe drinking water and sanitation facilities can lead to students becoming sick from water-borne infections and other ailments. The Thandokwethu School has no permanent ablution facilities.

This project alongside improving the general physical environment of the school, will work on installing proper hand wash, ablution and toilet facilities for the school and conducting awareness sessions in the schools and its surrounding areas to empower teachers and students alike community wide.

This will increase access to safer and cleaner ablution facilities that will in turn make the students' learning experience a more pleasurable one.

MALAYSIA: PROVIDING EDUCATION FOR ROHINGYA REFUGEES IN MALAYSIA

The number of Rohingya refugees in Malaysia has increased in the last five years. Among many challenges faced as a refugee in Malaysia, they have restricted access to education. Government-provided schools often only serve the locals, and refugees cannot afford to pay expensive education fee at international schools. Many also struggle with travelling further distances due to lack of personal transport. Thus, the only option is bringing education to them.

Islamic Relief Malaysia has initiated an Alternative Learning Centre for refugees, particularly Rohingyas in Taman Kajang Utama, namely Refugees Intellectual Skills & Excellence (RISE). This project will support these efforts by providing educational materials and training to teachers to deliver the Cambridge syllabus, as well as covering running costs of the school and for activities for the students.

MALAYSIA: IMPROVING THE INFRASTRUCTURE FOR EDUCATION OF STATELESS CHILDREN IN SABAH

The arrival of refugees' community in Sabah started in 1972, which came as refugees for asylum seeking. Sabah, located in the region of East Malaysia is recorded as the poorest state in Malaysia according to the Malaysian officials. 3 local schools are currently in very poor condition and lacking in many terms including facilities and infrastructure. Electricity and water systems are also very limited.

This project focuses on refurbishment of infrastructure at 3 alternative Schools for stateless communities in Sabah. In this project, we aim to assist in improving the water, sanitation and hygiene system in these schools as an effort to promote healthy lifestyle and hygienic environment amongst the stateless/undocumented community in Sabah.

AFGHANISTAN: QUALITY EDUCATION - SCHOOL SPONSORSHIP

This project supports Khoog Koor School (Sweet Home School) where 370 orphaned students study from primary to the end of secondary education. This project will provide continued funding for the school, covering the expenses until 2024. The school expenses for the academic years 2022 and 2023 have been covered with funds raised during CW2021.

Any vulnerable children starting will receive quality teaching during the one year of secondary level of education to be well prepared to continue school at the high school level. They will also receive learning materials including school uniforms, school bags, shoes, and stationery. The project will also provide teacher salaries and support the running costs of the school in Jalalabad.

ORPHAN SPONSORSHIP

SOUTH AFRICA

Children can find themselves in unfortunate circumstances where the primary breadwinner suddenly passes away, leaving them and any relatives in need, in the midst of their education and livelihood.

This project aims to support Orphans to provide the funds to continue and complete their education and cover any needed livelihood costs.

PAKISTAN & PALESTINE

For orphans across the world, poverty is a daily reality. Their lack of access to education, healthcare, and safe-spaces increases the vulnerability of these children and causes them to face a bleak future.

Charity Week continues its annual tradition of sponsoring orphans in Palestine and Pakistan, providing them with food, clothing, education and healthcare.

UNITED WE WON

We hope that this report has captured fond memories and excitement of everyone involved in 2022, and allow us all to reflect with nostalgia on the impact of our joint efforts. And if this is what we feel in this world, how happy we might be, when we read our own report:

فَأَمَّا مَنْ أُوتِيَ كِتَابَهُ بِيَمِينِهِ ۖ فَيَقُولُ هَؤُلَاءِ أَفْرَعُوا كِتَابِيَهٗ

*Then, as for him who is given his record in his right hand, he will say:
Take, read my book! (69:19)*

May this report be one of the many reasons we will be among the above.

We can't wait to see you in 2023.

With peace, your Charity Week 2022 Team
